Competitively Priced Forklifts

Packed with features that improve your operation

50-8FGCU25 Core IC Cushion

Move large volumes of products quickly with a top speed of 10.6 MPH and max load capacity of 5,000 lb. Plus, avoid accidents through the Toyota System of Active Stability (SAS), which detects unsafe conditions and activates stabilizing measures.

- Mast height: 189"
- Fork length: 42"
- Four way valve

8FBES15U 3-Wheel Electric

Offering the same or better performance as gas powered models, the 8FBES15U is low maintenance and has 40% longer battery life than the competition. Plus, it's easy to maneuver, can lift loads weighing up to 3,000 lb, and travels at 9.9 MPH.

- Mast height: 189"
- Battery: 36 Volt
- Fork length: 42"
- Sideshifter included

Budget Friendly Forklift Options

Look at our used listings as an alternative to buying new

Purchasing used forklifts is an effective way to expand your fleet with a high quality machine while keeping your costs under control. We carry a wide range of pre-owned forklifts with varying hours, features, and capabilities, so you can find one that works for your operation and budget. We also offer fully reconditioned units with warranties and leasing options for many of our used models.
