

## SMART MOVES

### A JIT Workshop Series

Lunch. Learning. Forklift Strategy.

## Topic: Power Up Your Battery IQ

Are you making the smartest decisions for your industrial batteries?

Join us for a fast paced, in person workshop at JIT Toyota-Lift designed to help you boost safety, cut downtime, and explore lithium ion vs. lead acid options with confidence.

- Power Up Your Battery IQ
- JIT Toyota-Lift, 25 Boxwood Lane, Cheektowaga
- Thursday, July 10 | 12:00 PM – 1:30 PM

In just 90 minutes, you'll get:

- Critical battery room safety tips & best practice
- Lithium ion vs. lead acid: which fits your fleet
- A tour of our battery service area and a battery service demonstration
- Lunch + 1-on-1 time with our team

If you're involved in equipment, facilities, or safety—this session is a must.

Space is limited. Save your seat now.

## Lifting Pallets Is as Easy as Lifting Burgers off the Grill

When you choose the Toyota 8FBES15U electric forklift

Perfect for both indoor applications, the 8FBES15U is low maintenance, produces zero direct emissions, and offers the same or better performance as gas powered models. Plus, you can easily maneuver in tight areas and operate in 10' aisles because of its three wheel design that turns sharply and side shifter that moves your forks side to side without repositioning the machine.

- Mast height: 189"
- Load capacity: 3,000 lb
- Battery 36V
- Max travel speed: 9.9 MPH

Toyota electric forklifts offer 40% longer battery life and are 15% more energy efficient than the competition!

### Best Practices

## Keep Your Toyota a Toyota

They're built to fit your specific machine

The primary advantage of OEM forklift parts is that they are designed to be compatible with your particular make and model. They're engineered by the same manufacturer that created the original equipment, ensuring precise measurements, mounting points, and operating features that aftermarket parts might not match.

## Working Overhead Made Easy

With Snorkel small electric scissor lifts

**Snorkel**

Designed for both indoor and outdoor work, Snorkel small electric scissor lifts can fit through standard doorways and in many elevators, helping you access a wide range of work areas. Their solid rubber tires are quiet and don't leave floor marks, perfect work operating indoors. Plus, they are nimble for maneuvering around tight warehouses or yards.

	Weight	Platform Capacity	Working Height
<b>S3013 MINI</b>	1,750 lb	600 lb	19'
<b>S3219E</b>	3,075 lb	550 lb	25'
<b>S3219 PLUS</b>	2,900 lb	600 lb	25'
<b>S3215L</b>	2,100 lb	670 lb	21'
<b>S3220 MINI</b>	2,400 lb	600 lb	26'
<b>S3220E</b>	4,500 lb	900 lb	26'
