

Today Is National Forklift Safety Day!

Make sure your technology and techniques are up to date

The goal of National Forklift Safety Day is to reinforce the importance of training and following best practices for driving and handling loads. At JIT Toyota-Lift, we understand how critical forklift safety is for your business, and we offer several solutions that can help.

Toyota's SEnS Smart Environment Sensor System

The SEnS system alerts you to the presence of obstacles up to 32' away using warning lights and buzzer sounds that increase in intensity as objects get closer.

Adding custom blue lights

We install direction activated blue lights on many of our customers' forklifts, so that everyone in the facility can easily see them coming, whether they're able to hear the forklift or not.

Forklift operator training

We provide what you need to comply with OSHA forklift training requirements, including a course outline, classroom and practical instruction, written tests, and performance evaluations.

Are You Servicing Your Equipment Yourself?

Order preventive maintenance kits conveniently online

We offer a wide variety of service and maintenance kits, so you have the OEM fluids, filters, and wear parts required for your Toyota equipment. Choose from filter kits, lift cylinder overhaul kits, oil change kits, and many others.

Toyota Industrial Energy Solutions

Lithium ion batteries and chargers available

We have 24V, 36V, and 48V lithium ion batteries that are compatible with select Toyota forklifts. Engineered to increase your productivity, they feature a patented design and electrolyte technology that keeps your battery operating at peak performance for an entire shift. They are maintenance free and have a much smaller footprint than traditional lead acid batteries. Plus, we carry chargers that can be mounted on walls, posts, or racks.

Toyota lithium ion batteries are covered by an eight year, 5,000 cycle limited warranty, and the chargers are covered by a six year limited warranty. Talk to our team to find the right energy solutions for your operation!
