

# SMART MOVES

## A JIT Workshop Series

Lunch. Learning. Forklift Strategy.

### Topic: Power Up Your Battery IQ

**Are you making the smartest decisions for your industrial batteries?**

Join us for a fast paced, in person workshop at JIT Toyota-Lift designed to help you boost safety, cut downtime, and explore lithium ion vs. lead acid options with confidence.

- Power Up Your Battery IQ
- JIT Toyota-Lift, 25 Boxwood Lane, Cheektowaga
- Thursday, July 10 | 12:00 PM – 1:30 PM

**In just 90 minutes, you'll get:**

- Critical battery room safety tips & best practice
- Lithium ion vs. lead acid: which fits your fleet
- A tour of our battery service area and a battery service demonstration
- Lunch + 1-on-1 time with our team

**If you're involved in equipment, facilities, or safety—this session is a must.**

**Space is limited. Save your seat now.**

### Training and Certification Services

For your forklift operators

We provide forklift certification courses where you need them, when you need them. Our team will come to your facility, or you can attend classes at our training center in Buffalo. Either way, we offer everything required for OSHA certification, including classroom instruction, hands on training, testing, and written trainee performance evaluations.

#### Best Practices

### The Key Part of Choosing a Forklift Dealer

Effective shop and mobile service

It's important to understand a dealer's capacity for completing service in their shop and how responsive they are for forklift service in the field. Rapid response times mean that when equipment malfunctions, your dealer can minimize production interruptions, keeping your workflows operating smoothly.

For example, at JIT Toyota-Lift, we have two full service forklift repair shops, 18 mobile technicians serving Buffalo, Jamestown, and the entire western New York area, and our team averages a 1.5 hour response time for emergency service.
