

# It's Time to Start Planning Your Winter Dock Operation

**Cold temperatures are coming!**

**BLUE GIANT®**

Frigid temperatures, freezing rain, and drifting snow can increase your warehouse operating expenses and create unsafe working conditions. We help you fight back against the elements by offering the full line of Blue Giant products. Order them now, so you're ready for winter!

**Head Curtain Dock Seals** – Designed to accommodate a range of trailer heights, these dock seals help your crew and facility stay dry during cross docking operations.

**HingeMaster™** – An innovative dock seal that closes off the hinge gaps on trailer doors, keeping more warm air inside your warehouse and the wet and cold outside.

**Air Curtains** – Forming an invisible barrier, Blue Giant air curtains provide a stream of air that blocks cold winds while allowing foot and vehicle traffic to pass through.

**Ice Wheel Chocks** – Equipped with tooth shaped cleats that grip icy surfaces, these chocks remain firmly in place and prevent vehicles or trailers from moving.

**We carry a wide variety of other Blue Giant dock solutions. Talk to our team, and we'll recommend the right products for your specific needs.**

## SMART MOVES

### A JIT Workshop Series

Lunch. Learning. Forklift Strategy.

## Topic: Drive Forklift Management with Data

**Use real time data to reduce your costs**

Forklift data isn't just for big fleets—it's for smart ones. In this 90 minute session, we'll show you how telematics can give you visibility into your fleet like never before, and how to turn that data into savings, safety improvements, and better decisions. Here's what you'll learn:

- What telematics can track—and why it matters
- How data helps minimize damage, downtime, and guesswork
- How to use insights to improve safety, maintenance, and efficiency

**RSVP  
Today!**

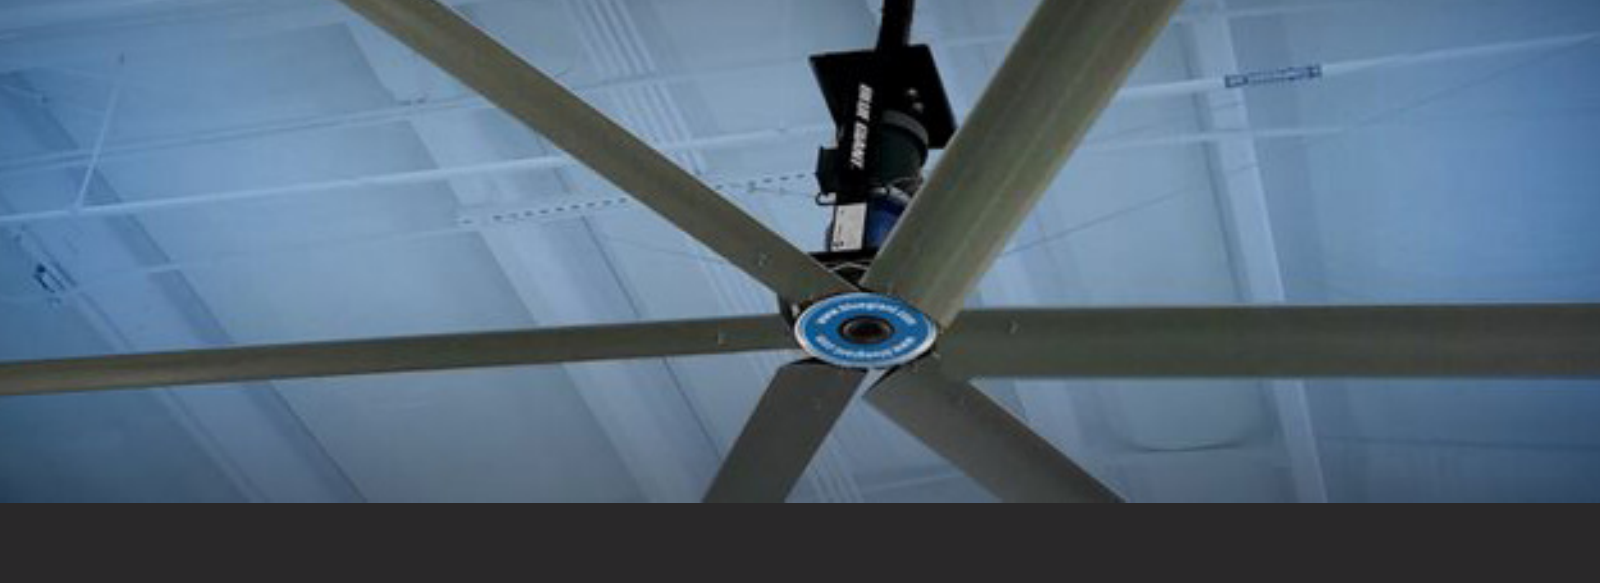

**Our Smart Moves Workshops are free, in-person events that take place in a hands-on setting with a complimentary lunch. Spots are limited, so RSVP today!**

**When:** Thursday, September 11, 2025 | 12:00 pm – 1:30 pm

**Where:** Our Buffalo location  
25 Boxwood Lane  
Cheektowaga, NY 14227 [Map It](#)

## Best Practices

### Winter Loading Dock Tips

**Improve airflow in your warehouse**

One of the best ways to ensure your employees are comfortable and avoid high heating costs in winter is to install high volume low speed (HVLS) fans. They force the warmer air that is trapped against your ceiling down towards the floor, raising the temperatures without raising your utility bill.

## When You Need a Forklift Fast...

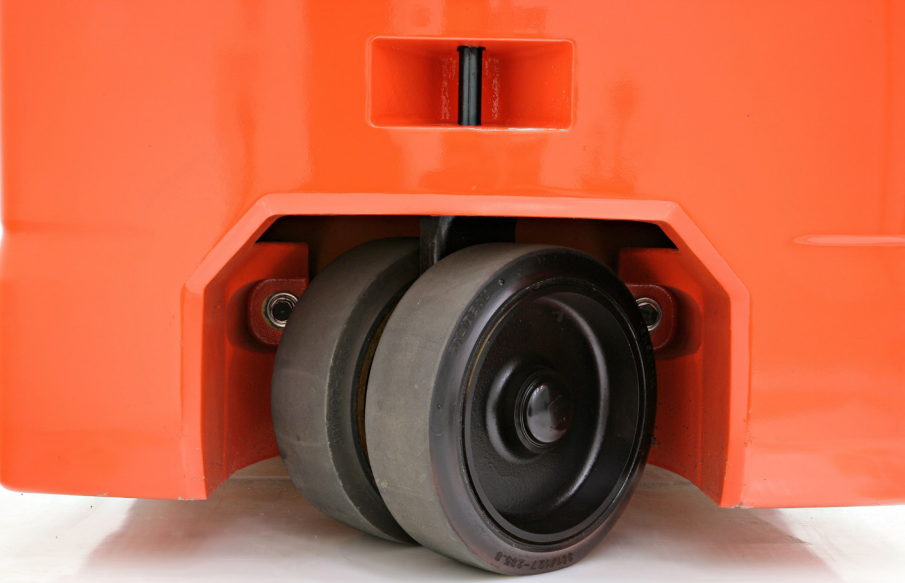

**Check our used listings**

Choose from our large selection of pre-owned forklifts that have varying hours, features, and capabilities to locate one that fits your operation and budget. We also offer fully reconditioned units with warranties and leasing options for many of our used models.

## JIT Is Hiring!

**We're looking for qualified forklift technicians**

Don't worry, we're not trying to steal anyone from your team. But if you know a technician who is looking for a change, wants to take the next step in their career, or is currently underutilized where they're at now, recommend us to them! We offer challenging and rewarding jobs in a fast paced environment.

- Highly competitive wages
- Excellent benefits
- A people first culture
- Training and advancement opportunities available
