

Increase Your Warehouse Efficiency AND Tax Savings

By buying dock and racking equipment and taking advantage of Section 179

Now is the perfect time to purchase equipment for your facility, because the Section 179 deduction limit has more than doubled compared to last year, and Bonus Depreciation has increased from 60% to 100%. That means that you can deduct up to \$2,500,000 for qualifying purchases in 2025. Are you spending more than \$2,500,000? The remaining amount can be deducted through 100% bonus depreciation.

Example:

If you spend \$3,000,000 on qualifying equipment:

1. Deduct \$2,500,000 through Section 179
 2. Remaining amount: \$3,000,000 - \$2,500,000 = \$500,000
 3. Deduct the remaining \$500,000 through Bonus Depreciation
- The total 2025 deduction for your equipment purchase is \$3,000,000.

We have dock levelers, seals, shelters, air curtains, ice wheel chocks, pallet flow racking, and much more in stock and available now. Don't wait! You must buy and place your equipment into service by December 31, 2025 to save.

Exclusions apply. This information should not be considered tax advice. Consult your tax advisor or the IRS for additional information.

Equipment Inspections Have Never Been Easier!

Our JIT Connect app makes them fast and simple

The all new JIT Connect inspection tool saves you time, improves compliance, and ensures accountability for daily machine checks.

Inspections are customized for each machine – A unique QR code on each piece of equipment brings up the required checklist for that machine.

Hold each operator accountable – Operators are assigned their own PIN to access the app and complete the inspection, so you have full visibility into what was done, when, and by whom.

Immediate alerts – If equipment problems or unsafe conditions are flagged, supervisors are instantly alerted, so they can fix the issue right away.

No more paperwork – The JIT Connect app gets rid of filing cabinets, missing or incomplete forms, and wasted time.

Keep tabs on operator training – You no longer need to manually track certification dates and upcoming training requirements.

Contact JIT Toyota-Lift to set up your system! We will analyze your fleet and upload all the necessary information to tailor the app to your business.
