

Avoid Unplanned Downtime and Unexpected Repair Bills

Our full maintenance agreements keep you operating at your best

Designed to provide you with predictable costs and maximum uptime, our agreements cover all scheduled maintenance plus wear and tear repairs for a fixed monthly payment. They include:

- Proactive planned maintenance based on OEM recommendations
- All parts and labor for repairs caused by normal wear and tear
- Replacement of worn out components (for example, belts, hoses, and brake pads)
- Priority scheduling when a machine breaks down
- No transportation charges for in shop repairs
- One monthly invoice to simplify accounting
- Documented service history to increase resale value

In Stock and Ready to Work!

Quickly Move Large Volumes of Product

Using the Toyota 8FGCU25 Core IC Cushion forklift

Perfect for your big material handling jobs, the 8FGCU25 has a load capacity of 5,000 lb and a top speed of 10.6 MPH. Avoid dangerous situations and wasted time through Active Mast Control that automatically limits forward tilt when the load weight is unstable. Plus, prevent accidents because of the Toyota System of Active Stability (SAS), which detects unsafe conditions and activates stabilizing measures.
