

Solutions for Narrow Aisles, Long Loads, and other Specialty Needs

We offer the full lineup of **Combilift machines**

When you have a difficult loading situation that a standard forklift can't handle, choose Combilift. Their articulating Aisle Master models can operate in spaces as narrow as 72" and reach heights up to 49'. The Combi-CB forklifts can travel forward, backward, and side to side, making them perfect for carrying palletized goods in tight areas. If you have an exceptionally long or heavy load, Combilift's sideloader forklifts are a great option.

We also have Combilift's stackers, reach trucks, stand-on sideloaders, and more!

Reliable, Efficient Power

We have Stryten batteries and chargers in stock!

Designed to deliver long run times and withstand harsh working conditions, Stryten forklift batteries help your equipment operate at peak performance while minimizing downtime and maintenance costs. We carry multiple battery and charger options to fit the requirements of your specific operation.

Our team will look at your forklifts, shift schedule, current energy usage, and other factors to determine which type and size battery and charger to choose.

Strong Supply Chains Depend on Effective Material Handling

JIT Toyota-Lift provides the equipment required to keep them moving

National Supply Chain Day is on Wednesday, April 29! It's a day to recognize all the people, processes, and machines that ensure goods stay flowing across the world. From warehouses and distribution centers, to loading docks and factory floors, every link in supply chains relies on equipment that performs when you need it to.

At JIT Toyota-Lift, our forklifts, battery services, maintenance, and parts support are designed to help you avoid downtime and maximize productivity in your entire operation.
