

Built in the Heartland. Proven to Outwork the Competition.

Toyota forklifts are made across America

Toyota has assembled forklifts in Indiana since 1990, and they manufacture parts in multiple states, supporting U.S. jobs along the way.

- ✓ Forks from Ohio
- ✓ Chains from Illinois
- ✓ Seats from Michigan
- ✓ Tilt cylinders from West Virginia
- ✓ Side shifters from Georgia
- ✓ Counterweights from Indiana

Choose the 8FGCU25 to quickly move heavy loads

Perfect for big jobs, the 8FGCU25 carries 5,000 lb and travels at 10.6 MPH. Plus, avoid dangerous situations with its Active Mast Control that limits forward tilt when the load weight is unstable.

Revolutionize the Way You Manage Your Fleet

JIT Connect is two apps in one

JIT Connect's Service feature eliminates back-and-forth communications and sends real time updates by text. Its Inspection feature helps maintain OSHA compliance by tracking inspections across all shifts and locations.

Warehouse IQ

When to Rent a Pallet Jack

- Handle short term or seasonal increases in volume
- Support temporary projects or layout changes
- Replace equipment during maintenance or repairs
- Avoid capital investment for equipment you only need occasionally

Renting provides flexibility and ensures you have the right warehouse equipment on the floor.
