

We Hate to Say It... But It's Time to Talk About Winter

Trust us, your facility and team will thank you in January

We know it's hot outside, but the frigid temperatures, freezing rain, and drifting snow aren't too far away. These conditions can increase warehouse costs and create an unsafe working environment. We carry Blue Giant's full lineup to keep the winter out, the warmth in, and your expenses as low as possible:

Order now, so you're prepared for the season!

Dock seals

Dock shelters

Air curtains

Ice wheel chocks

Talk to our team, and we'll recommend the correct products to protect your crew and warehouse investment.

BEST PRACTICES

Loading Dock Tips for Winter

Improve airflow in your warehouse

One of the best ways to avoid excessive heating costs in winter is to install high volume low speed (HVLS) fans. They force the warmer air that is trapped against your ceiling down towards the floor, raising the temperatures without raising your utility bill.
