

NEW!

THE TUBULAR™ MAXIMUM PERFORMANCE ADVANTAGE

The newly redesigned GNB Tubular MPX™ batteries deliver even more power in the same size container, with up to 18% more capacity*. Engineered for superior performance, MPX batteries not only deliver longer run times, but also maintain higher voltages for faster speeds and quicker lifts. MPX batteries also feature GNB's round tubular technology, which provides longer run times versus competitive square grid designs. MPX batteries can achieve up to 1800 cycles at 80% depth-of-discharge (DOD). Trust Tubular MPX batteries to power your business forward.

Extreme Duty

TUBULAR™ MPX™

MAXIMUM PERFORMANCE MOTIVE POWER BATTERIES

The right choice for premium power and performance.

- Available for Lift Truck Class I, II, and III
- Superior design delivers more power for longer runs, even in extreme (cold storage) environments
- Engineered for premium heavy duty performance
- Enhanced grid design for increased energy efficiency
- Increased positive spine diameter for longer life and greater efficiency
- Improved separator technology for added vibration protection
- Superior gauntlet design ensures plate and active material integrity
- Best when charged with GNB Industrial Power chargers
- Approved for opportunity and fast charging applications

IT IS SIMPLE GEOMETRY

CIRCLES ARE MORE EFFICIENT THAN SQUARES

When it comes to longer run-time, a CIRCLE is better than a SQUARE.

Some manufacturers lead you to believe that an increase in surface area means added power. This is really only a small part of the story. The electrons in a square-tube design have further to travel, which can result in increased resistance and voltage drop. GNB's round tubular technology is engineered for maximum efficiency by creating the shortest path possible. This results in higher voltage, longer run-time, and improved efficiency.

RECYCLE WITH EXIDE

EXIDE TOTAL BATTERY MANAGEMENT (TBM)

Exide is one of the largest secondary recyclers in the world, and one of the few companies with the ability to provide Total Battery Management, helping to divert batteries from the waste stream by returning the recycled materials to new products. Our commitment to recycling and environmental responsibility is unwavering.

FIND THE RIGHT BATTERY

Check out our new on-line battery finder application. Scan this QR code with your smart device. This new tool will also help you select the right battery and charger pairing for your application.

TUBULAR MPX™ DATA:

TYPE	Ah	HEIGHT (without cover)	HEIGHT (with cover)	PLATES
100T	100	22.6"	23.3"	5-33
140T	140	30.5"	31.0"	5-25

THE TUBULAR 5+1 WARRANTY DIFFERENCE

Power and performance are two things you can count on with Tubular batteries. Not only do our batteries come with unparalleled service and support, they are also backed by our 5+1 warranty offering.

Trust GNB's® Tubular batteries to power your business forward.

For longer life and optimal performance, pair your Tubular batteries with GNB Industrial Power chargers.
